TO WELCOME CASTAWAY BABES.

French Municipal Bureau Will Ask
Mothers No Questions.
Paris, Aug. 26.—With the view to avoid-
ing cases of open child murder, the town
councils of Dunkirk and Hazebrouck
have decided upon a revival of the an-
cient practice of municipal bureaus, open
day and night, where mothers can leave
their new-born babes without revealing
their identity.

To Buy Blood for Paralysis.

Bridgeport, Conn., Aug. 26.—Dr. Vir-
gil P. Gibney, head of the New York
Orthopedic Clinic for the Treatment of
Poliomyelitis Epidemic Sufferers, said
today that the New York State
board of health is making a list of all
known surviving sufferers from the
disease since 1907, with the view of of-
fering them money for quantities of their
blood to be used in making the serum
for those now afflicted with the malady.

SPEED FIENDS COMING FOR BENNING RACES

Powerful Cars and Dare-Devil Drivers
Promise Excitement at Labor
Day Event.

Entries for the big automobile races at
Benning track, on Labor Day, are com-
ing in fast and they already list the fast-
est cars and most daring drivers that
have ever faced a starter since the fea-
ture meet has been held. Entrants in the
special event, up to a late hour, are
thirteen, while those in the stock and
pleasure car events pass thirty.
Jimmie Kline and Joe Minker are slated
to drive the big Kline-Kars and both
men have a reputation for daring speed
on the turns. Kline has driven one of
the cars on the Wildwood track on a mile
straight-away at the speed of eighty
miles an hour. Each hold a number of
course records and their match races
will develop into a spectacular exhibit
of speed and nerve.
Eye-See-Bee, the famous red bodied
car driven by Barber, will be in prime
condition for the race. Although Barber
has sold the speedster to Weightman, he
will be at the wheel.
Washington and Baltimore people will
not be troubled with car service because
the Washington Railway and Electric
Company and the Washington, Balti-
more & Annapolis will run special cars.
Baltimore people will be taken directly
to the track.
The general admission will be 50
cents, with grandstand \$1 and box seats
\$2 extra. The gates will be opened at
11 o'clock in the morning to prevent a
jam prior to the races.

U. S. SHIPPING GAINS 820,000 TONS BY WAR

American shipping has gained in
gross tonnage, since the beginning of
the European war, 820,000 tons, al-
most as great as all other nations
combined. Acting Secretary of Com-
merce Sweet announces. This increase
is due mainly to the ship registry act
of 1914, which permitted American
owners of ships under foreign flags to
obtain the American flag and register.
America's gain has meant a severe
loss to other nations. Secretary Sweet
declared. The German merchant ma-
rine is the heaviest loser. Their mer-
chant marine has been lessened by
1,307,744, partly by transfer to other
neutral flags and by capture at the
hands of enemy powers.

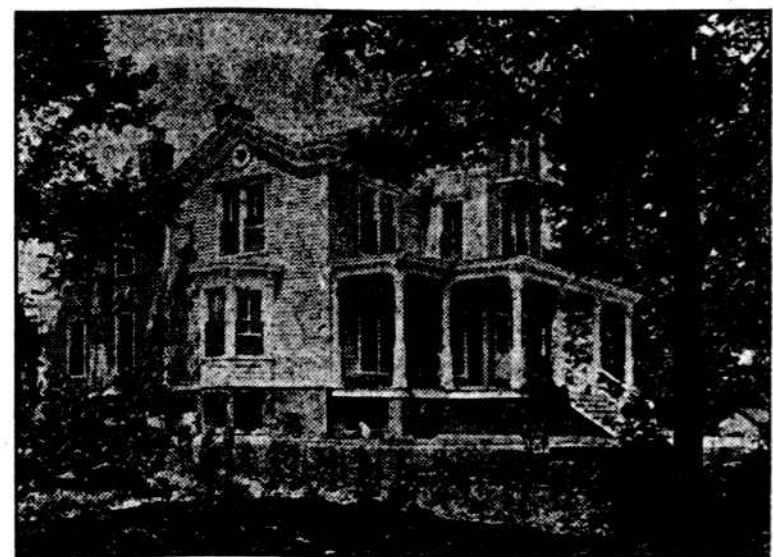

RECRUITING STATIONS FOR GUARDSMEN IDLE

For the past two days not a recruit has
enlisted for any organization in the Dis-
trict National Guard. Capt. D. Spencer
Bliss and his assistants at the Camp
Ordway recruiting office have been unable
to find any man physically fit and willing
to join the guard.
The Ninth street station and the three
tent stations, at Seventh and Pennsylv-
ania avenue northwest, Fifteenth and
H streets northeast, and Eighth and
Pennsylvania avenue southeast, have also
reported business slow, and have sent
few men out to the camp. The Ninth
street station is said to have received
four applications for enlistment yester-
day, but those men must pass the phys-
ical examination at the camp before they
are accepted.

SCORES EXECUTION OF WOMAN SPY IN FRANCE

(By The International News Service.)
Berlin (via Sayville wireless), Aug. 26.—
The Cologne Gazette, in commenting
upon the recent execution of the woman
spy, Louise Pfandt, by the French at
Marseilles, recalls the agitation that fol-
lowed the shooting of Miss Edith Cavell
by the Germans in Belgium, and especial-
ly the criticism printed in newspapers in
London and Paris.
The paper says, in part:
"Do the same moral principles hold
good when it is a German woman who
is shot and when the French executed
her?"

New Home of Science School Nearing Completion

One of the most important developments
in the real estate line of the past year
is rapidly approaching completion on
Wisconsin avenue, near its intersection
with Massachusetts avenue, where the
George A. Fuller Company is finishing
four large buildings for the National
School of Domestic Art and Science.
The site of the new buildings is on a
tract of more than seven acres, known as
the Barber estate. The site is one of the
highest in the District. The mansion
has been remodelled to serve as an ad-
ministration building.
The new buildings are constructed of
Potomac blue stone, with concrete floors,
cement plaster and slate roofs, and are
fireproof and modern. A central heating
plant supplies heat for the entire group
of five buildings, the pipes and wires for
heating, lighting and power being dis-
tributed throughout the grounds in tun-
nels and conduits. New roadways, walk-
ways and other improvements are well
along toward completion, and the grounds
have been brought to a high state of per-
fection under efficient landscape garden-
ing.
The work is proceeding with remarkable
rapidity and the first building will be
occupied within two weeks. There are
more than 150 men employed on the op-
eration by the George A. Fuller Company,
who have a contract for the structures.
The buildings completed this year house
eighty boarding pupils and about 200 day
pupils, and it is said the school will open
to capacity. In addition to the regular
recitation and class rooms, laboratories,
etc., the school provides tea rooms, a
chocolate shop, tennis courts, basket-
ball fields, and other means for the en-
tertainment and diversion of the pupils.
The plans were made by and the build-
ing operations are under the direction of
Mr. Charles F. Wood, vice president and
secretary of the school. The educational
departments are under the direction of
Miss Mary Arline Zuercher, the founder
and principal, who is also the president
and treasurer of the corporation.

CATHOLIC PRIEST LEAPS SIX STORIES TO DEATH

(By The International News Service.)
Chicago, Aug. 26.—Father Ignatius
Tomazin, a Roman Catholic priest of
Albany, Minn., either fell or leaped from
his room on the sixth floor of the Hotel
Sherman here today. His crushed body
was found in the courtyard below.
Father Tomazin was 70 years of age and
was spending a short vacation in
Chicago. He had been in ill-health for
some time, and was accompanied by
Mrs. Martha McCusky, a nurse, who oc-
cupied an adjoining room.
A note addressed to her was found in
the priest's room. It read:
"You will find a check for \$200 which
will enable you to visit your relatives at
St. Paul, Minn., as you wished to do
when your duties were over."

FEDERAL TRADE BOARD GIVES FIRST DECISION

The first decision ever made by the
Federal Trade Commission was rendered
yesterday. During its two
years of existence the commission has
made a number of investigations, but
had issued no orders.
The commission today ordered a
Philadelphia manufacturer of thread
and similar materials to discontinue
the use of the name "silk" on prod-
ucts not made exclusively of silk.

PAPER MAKERS ACCUSED OF UNFAIR METHODS

Special to The Washington Herald.
Glens Falls, N. Y., Aug. 26.—Paper man-
ufacturers have taken an unfair advan-
tage of the newspaper publishers, J. T.
Caray, president of the International
Brotherhood of Paper Makers, told the
State Federation of Labor at the closing
sessions of its annual convention today.
Resolutions were adopted calling for
an investigation of the scarcity and high
price of paper. Another resolution pro-
vided for an investigation by the fed-
eration's executive council of the report
of the State Industrial Commission on
a strike in the paper mills at Watertown.
Resolutions also called on the executive
council to prepare a set of questions for
candidates for all State offices explaining
their position on appropriations for the
State Labor Department and other legis-
lation.

GERMAN JEWELERS PLAN TO BAR SWISS WATCHES

Four thousand German jewelers have
joined in a boycott against the im-
portation of Swiss watches into the
Teuton empire. This action was taken
because of the conversion of Swiss
watch factories into munition plants
for the manufacture of war supplies
for England and France, according to
advice reaching the State Depart-
ment yesterday from Berlin.

JURY PLANS REUNION.

Men Who Indicted Mayor Roberts
to Hold Gatherings.

Indianapolis, Ind., Aug. 26.—The annual
reunion of the Federal grand jury, which
brought indictments against Mayor Donn
Roberts and 127 other Terre Haute poli-
ticians in the first big prosecution made
under Federal laws for illegal practices
at the polls other than intimidation of
voters, will be held at Riverside Park,
September 5.
The twenty-one grand jurors announ-
ced, however, that it is not a jollification
meeting because every man indicted and
tried was convicted, but to keep up close
associations made during four months of
service.

FORBIDS TATTOOING MINORS.

Kansas City Would Protect Youths
from Needle Artists.
Kansas City, Mo., Aug. 26.—Fancy col-
ored pictures with the human skin as a
canvas are frowned upon by the city
fathers. Kansas City youths hereafter
are to be protected from the blandish-
ments of the "artists."
An ordinance imposing a \$50 license tax
on tattooing establishments and abso-
lutely prohibiting the tattooing of minors
has just been passed by the city council.
